HOLIDAY CLOSURE

Town offices will be closed on Wednesday, July 4, in observance of Independence Day.

*****REFUSE WILL BE COLLECTED*****

Refuse will be collected on Wednesday in accordance with the Town's new refuse collection program, effective July 2. **NOTICE:** Your collection day may have changed. Please view page 10 of this newsletter or visit www.viennava.gov for more information.

WATER QUALITY REPORT

See pages 4-9 for the 2012 Water Quality Report for the Town of Vienna and surrounding service area.

JULY 4th Festival

Wednesday, July 4, 11 am - 4 pm

Vienna Community Center

The Vienna Parks and Recreation Department invites you to enjoy food, games, rides, arts & crafts, a chili cook-off, community booths, antique cars, family games and music! In the event of rain, call (703) 255-7842 for cancellation information.

Ticket sales for rides and attractions end at 3:30 pm.

Main Events

Enjoy the Oldies with Ron Moody and the Centaurs, 12:15 pm
Family Games, 2 pm

Children's Stage

Childtime Magic Presents Louis the Magician, 1 pm

July 4th Fireworks Show

Southside Park, 1315 Ross Drive SW

Fireworks Show begins at 9:15 pm

Entertainment by Fat Chance begins at 7 pm at Yeonas Park

Seating available at Yeonas Park with limited seating available at Southside Park. Spectator seating areas open at 5 pm. Lawn chairs are prohibited on baseball fields at Yeonas Park. Restrooms available. Vienna Little League concession stand open.

No dogs, alcohol or glass items permitted.

RAIN DATE FOR FIREWORKS ONLY:

Thursday, July 5

Thanks to Vienna Little League for making Yeonas Park available.
For a detailed map of the fireworks show site, visit www.viennava.gov.

Road Closures & Parking

The following streets will be closed to vehicular traffic beginning at 7:30 pm:
Patrick Street, Patrick Circle, Ross Drive from Cottage Street to George Street, and George Street from Cottage Street to Ross Drive.

Parking available at Cedar Lane School and Thoreau Middle School.

Visit www.viennava.gov for additional public parking opportunities.

REFUSE COLLECTION CHANGE REMINDER:

The Town of Vienna will implement the new Refuse Collection Program on **Monday, July 2**. Under the new program, all trash, recycling, bulk items, yard waste and brush materials will be collected on one day each week. Please view page 10 or visit www.viennava.gov for more information.

REFUSE WILL BE COLLECTED ON WEDNESDAY, JULY 4.

JULY TOWN MEETINGS

Meetings are at Town Hall, 127 Center St., S, at 8 pm unless otherwise noted.

Monday, 2nd: Town Council Meeting

Tuesday, 3rd: Windover Heights Board of Review, 7:30 pm (if needed)

Thursday, 12th: Town/Business Liaison Committee, 7 pm

Wednesday, 18th: Board of Zoning Appeals

Thursday, 19th: Board of Architectural Review; Bicycle Advisory Committee, Vienna Community Center

Thursday, 26th: Community Enhancement Commission, 7:30 pm

Tuesday, 31st: Transportation Safety Commission

WELCOME NEW BUSINESSES

These businesses received business licenses during the month of May.

Public Information Officer	Kirstyn L. Barr	(703) 255-6330
Public Works Director	Dennis Johnson, P.E.	(703) 255-6380

Send news to Vienna Newsletter c/o Town Hall
FAX (703) 255-5729 • e-mail pio@viennava.gov
Deadline for the August issue is July 15.

UPCOMING COUNCIL PUBLIC HEARINGS

All public hearings are held at Town Hall, 127 Center St., S at 8 p.m. unless otherwise noted.

Upcoming Public Hearings:

July 2, 2012

- Proposed Ordinance to Permit Massage Therapist as a by-right use in T Zone
- Rezoning of 140 Locust Street SE
- Proposed Ordinance to amend Section 18-169, Cantilevered Architectural Projections

TOWN COUNCIL ACTIONS

Town Council minutes, agendas and meeting videos are available online at www.viennava.gov/index.aspx?nid=567. For a hard copy of the most recent approved Town Council meeting minutes, please contact the Town Clerk at clerk@viennava.gov or (703) 255-6303.

VIENNA BUSINESS ANNIVERSARIES

Congratulations to the following Vienna businesses who will celebrate milestone anniversaries in July 2012:

20 Years

BFR Construction Company
Frank Dunnington Jewelry

10 Years

Academy of Music for Young Children
Golden Touch Jewelers

JULY RECYCLING EVENTS

Wednesday, July 11: Business Hazardous Waste Clean-up Day for Conditionally Exempt and Small Quantity Generators, 9 am to 2 pm, I-66 Transfer Station, 4618 West Ox Road, Fairfax

Saturday, July 21: Document Shredding Event, 8 am to 12 pm, Oak Marr RECenter, 3200 Jermantown Road, Oakton

Sunday, July 22: Electric Sunday, 10 am to 3 pm, I-66 Transfer Station, 4618 West Ox Road, Fairfax

For more information on Fairfax County recycling events, visit www.fairfaxcounty.gov/living/recycling.

COMMENT FROM THE COUNCIL TABLE

Freeman Store on National Register: How did they do that?

By Edythe Frankel Kelleher, Vienna Town Council Member

You may know that Historic Vienna, Inc. (HVI) is the group that staffs the Freeman Store and Museum, mounts historic exhibits and brings us events like Civil War movies, the Easter Egg Roll, the used book sale, the Church Street Holiday Stroll and Santa Claus. But did you know that these wonderful volunteers have recently taken on the role of history detectives?

First, a short version of the background: Vienna's Freeman Store and Museum was built in 1879 by Abram and Susan Lydecker as a store, hotel and residence for their family. The building has also been a train depot, hospital, officers' quarters, post office and fire department.

According to an HVI informational pamphlet about the Freeman Store, the building was used by the Federal army during the Civil War. The Lydeckers' son-in-law, Anderson Freeman, helped them rebuild. Anderson's son Leon and his family operated the business for many years. Leon formed the first

Vienna Volunteer Fire Department, was a director of Vienna's first bank and served as Mayor on the Town Council and as a member of the Virginia House of Delegates. It is no wonder that the building is remembered with the name of this very prominent citizen.

The Freeman Store closed for business in 1929, remained a residence through the 1950's, fell into disrepair and was acquired by the Town of Vienna in 1969. A committee of Town residents organized the restoration work, and this group became HVI in 1976.

Now, back to the part about history detectives: According to HVI president Anne Stuntz, the Historic Register process took about three years. Intensive online research was done by HVI board member Sarah Jane Brady as she recovered from an injury. Ultimately, the Town hired a consultant, History Tech, to undertake additional research, prepare the applications and make sure all the details were included in the 33-page document. HVI board member

Maud Robinson said the process was, "extremely complex, tedious and demanding."

Listing on the Virginia Landmarks Register came first, and was celebrated by HVI and the Town in April. In May, word arrived that the building would be listed on the National Register of Historic Places. These recognitions convey prestige and confirmation of the building's place in history.

Volunteers like those in HVI contribute a great deal to our Vienna community. We wouldn't be the same place without them. If you do not have time to volunteer, you can make a donation by joining HVI. An annual membership is only \$20 and you get a 10% discount on all your Freeman Store purchases.

For more information, visit HVI's website at www.HistoricViennaInc.org.

FIVE REASONS TO LOVE A DEAD TREE

By Wendy Cardany, Community Enhancement Commission

With the development of more and more natural areas in Northern Virginia, our yards and neighborhoods are becoming vital homes for wild animals. If we are to continue to have beautiful songbirds, cute chipmunks, butterflies and other native wild animals in our area we need to open up our yards and invite wildlife in. Learning to appreciate dead trees (or "snags" as they are properly called) is one way to do this.

Here are five reasons to love a dead tree:

1. Many birds and mammals need dead trees for nesting. Snags are used for exterior nesting by birds of prey and brown creepers. Birds that make a nest in the interior of a dead

tree are the chickadee, nuthatch and woodpecker. Squirrels also nest in these interior cavities.

2. Tree cavities are used by many animals to store their food supplies and for protection from weather.
3. Dead wood hosts insects that are a primary food source for many animals.
4. Most bat roosts are in dead trees. Bats are a primary source of mosquito control, as they eat thousands of insects each night. Other mammals, amphibians, reptiles and many insect species also seek refuge in natural cavities and dens provided by dead wood.
5. Snags eventually decompose and create a rich soil for our trees and plants. Various microbial

species, such as bacteria fungi and mushrooms, flourish on and around logs, breaking down the organic matter to release important nutrients back into the forest soil.

Although dead trees and branches may not look attractive, you can now see their inner beauty and importance for our natural world. In this way, they become more appealing. Our family cut one of our dead trees back to about 20 feet tall and took off most of the branches and we call it our "woodpecker pole." It is fascinating for me and my children to watch its evolution and see the multitude of wildlife that it supports. So the next time a tree or large branch on a tree dies, consider leaving it in your yard as a home for our wild animals.

The Town of Vienna 2012 Annual Water Quality Report for the Town of Vienna and the surrounding service area

MESSAGE FROM THE TOWN MANAGER

This is the Town of Vienna's fourteenth annual report to inform you about your drinking water quality. As a part of the Safe Drinking Water Act of 1996, the U.S. Environmental Protection Agency (EPA) requires all water utilities across the nation to mail their customers a Water Quality Report by July 1 every year. Our goal is to provide you with a safe and dependable supply of drinking water and we want you to understand our efforts to protect your water supply.

The quality of your drinking water must meet state and federal requirements administered by the Virginia Department of Health and the US Environmental Protection Agency. We constantly monitor the water supply for various contaminants to ensure we meet all regulatory requirements. The tables in this report list only those contaminants that had some level of detection. Many other contaminants have been analyzed but were either not present or were below the detection limits of the laboratory equipment. All of our water quality data is from testing done in 2011; however, the Commonwealth allows us to monitor for some contaminants less than once a year because the concentration of these contaminants does not change frequently. Even though some of our data may be more than one year old, it is accurate.

On page two of this report, we have provided detailed information regarding an omission in our sampling requirements for the year 2010. To determine sampling locations with high disinfection byproducts (DBP) levels, our system was required to conduct a system evaluation to characterize disinfection byproducts and identify the monitoring locations. We were required to complete six sampling campaigns at multiple locations from December 2009 through October 2010; however, we did not complete this sampling and as a result we did not complete the system evaluation and identify the monitoring locations. We are in the process of completing the system evaluation and based off of this year's first quarter sampling, we are well below the maximum contaminant levels.

Is your water safe to drink? Absolutely! We're proud to share our water quality test results with you. For further information, please call the contact number below.

Sincerely,

Mercury Payton
Town Manager

This report contains important information about your drinking water. If you are not certain that you understand it, discuss it with someone who does or who can translate it for you if English is your second language. For more information, contact Donald Kahn, Town of Vienna Acting Water & Sewer Superintendent by phone at (703) 319-8610 or by e-mail at dkahn@viennava.gov.

El informe contiene información importante sobre la calidad del agua en su comunidad. Tradúzcalo o hable con alguien que lo entienda bien.

OPPORTUNITIES FOR PUBLIC PARTICIPATION

Decisions concerning Vienna's water are made by the Town Council. Regular meetings are normally held the first and third Mondays of the month (except July and August) at 8 p.m. in the Council Chamber at Town Hall.

GENERAL INFORMATION

As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and can pick up substances resulting from the presence of animals or from human activity. Substances (referred to as contaminants) in source water may come from septic systems, discharges from domestic or industrial wastewater treatment facilities, agricultural and farming activities, urban storm water runoff, residential uses and many other types of activities. Water from surface sources is treated to make it drinkable while groundwater may or may not have any treatment. All drinking water, including bottled drinking water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water possesses a health risk. More information can be obtained by calling the Environmental Protection Agency's (EPA) Safe Drinking Water Hotline at 1-800-426-4791, TTY711.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immunocompromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly and infants, can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. Environmental Protection Agency/Center for Disease Control guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline.

NOTICE TO CUSTOMERS

In keeping with National Primary Drinking Water Regulations, we are obliged to inform you that we may be in violation of state and federal regulations. The US Environmental Protection Agency (EPA) has been proactive in regulating drinking water contaminants and protecting public health. Disinfectants such as chlorine used during water treatment react with natural organic matter (coming from decaying vegetation), and form disinfection byproducts (DBPs). The formation of DBPs continues in the distribution system, therefore DBP levels increase as water travels in the distribution system. At elevated concentrations, some disinfection byproducts can increase the risk of cancer.

As part of the disinfectants/disinfection byproducts rule (D/DBP), water utilities are required to monitor DBP levels at various locations in the distribution system, and ensure that they remain below certain limits. For the Town of Vienna water system, during 2011, disinfection byproduct levels averaged 28ppb and 13ppb for the two major groups of regulated DBPs named Total Tri-Halomethanes (TTHM) and Haloacetic Acids (HAA5). For these two groups of byproducts, the maximum contaminant levels (MCL) are set at 80ppb and 60ppb for TTHMs and HAA5, respectively. Starting in 2012, the D/DBP rule will become more stringent (Stage 2). DBP samples will be required to be collected at locations where water retention times and DBP levels are likely to be high.

To determine sampling locations with high DBP levels, our system was required to conduct a system evaluation to characterize disinfection byproducts and identify the monitoring locations. We were required to complete six sampling campaigns at multiple locations from December 2009 through October 2010; however, we did not complete this sampling and as a result we did not complete the system evaluation and identify the monitoring locations. We will complete the system evaluation,

including the required sampling campaigns, during 2012, select the monitoring locations and start Stage 2 compliance monitoring in 2013.

THERE IS NOTHING YOU NEED TO DO AT THIS TIME.

We are attempting to prevent further violations by ensuring that all required sampling in our distribution system is done in accordance with the state drinking water regulations. Future violations will be reported as required by state regulations in order to increase consumers' awareness of conditions that exist in their public water system. For more information, please contact Donald Kahn at (703) 319-8610 or dkahn@viennava.gov.

WATER SOURCES

For the calendar year 2011, the Town of Vienna was supplied with treated surface water from the Potomac River by the City of Falls Church. The Town purchases treated water from the Washington Aqueduct supplied by Falls Church.

HOW DO I READ THIS CHART?

Our water is tested to assure that it is safe and healthy. Contaminants in the drinking water are routinely monitored according to Federal and State regulations. The table contained in this report shows the most recent results of our monitoring. Typical sources of contamination show where this substance usually originates. The following definitions are provided to help you better understand terms and abbreviations.

- The Washington Aqueduct sampling program includes *Cryptosporidium*. Their results and information are included.
- Non-detects (ND) - laboratory analysis indicates that the contaminant is not present.
- Parts per million (ppm) - one part per million corresponds to one minute in two years or a single penny in \$10,000.
- Parts per billion (ppb) - one part per billion corresponds to one minute in 2,000 years or a single penny in \$10,000,000.
- Parts per trillion (ppt) - one part per trillion corresponds to one minute in 2,000,000 years or a single penny in \$10,000,000,000.
- Picocuries per liter (pCi/L) - picocuries per liter is a measure of the radioactivity in water.
- Nephelometric Turbidity Unit (NTU) - nephelometric turbidity unit is a measure of the clarity, or cloudiness, of water. Turbidity in excess of 5 NTU is just noticeable to the average person. Turbidity is monitored because it is a good indicator of the effectiveness of the filtration system.
- Action Level (AL) - the concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.
- Treatment Technique (TT) - a required process intended to reduce the level of a contaminant in drinking water.
- Maximum Contaminant Level (MCL) - The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology. In developing the standards, EPA assumes that the average adult drinks two liters of water each day throughout a 70-year life span. EPA generally sets MCLs at levels that will result in no adverse health effects for some contaminants or a one-in-ten-thousand to one-in-one million chance of having the described health effect for other contaminants.
- Maximum Contaminant Level Goal (MCLG) - The level of a contaminant in drinking water below which there is not known or expected risk to health. MCLGs allow for a margin of safety.

- Maximum Residual Disinfectant Level (MRDL) – The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
- Maximum Residual Disinfectant Level Goal (MRDLG) – The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.

PERCHLORATE RESEARCH

Perchlorate is a naturally occurring as well as man-made compound. Its presence in drinking water is currently unregulated and utilities are not required to monitor for it. The Washington Aqueduct has been voluntarily monitoring for perchlorate since 2002. The EPA initially established a reference dose of 24.5 parts per billion (ppb) for perchlorate and beginning in 2009 has proposed an interim health advisory of 15 ppb. A reference dose is a scientific estimate of a daily exposure level that is not expected to cause adverse health effects in humans. The reference dose concentration was used in EPA's efforts to address perchlorate in drinking water and to establish the interim health advisory. In 2011, finished water sample results for perchlorate collected by Washington Aqueduct at both treatment plants ranged between none detected and 3.7 ppb. If you have special health concerns, you may want to get additional information from the EPA at www.epa.gov/safewater/contaminants/unregulated/perchlorate.html or by calling the EPA's Safe Drinking Water Hotline at 1-800-426-4791, TTY711.

LEAD IN DRINKING WATER

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. The Town of Vienna is responsible for providing high quality drinking water, but cannot control the variety of materials used in private plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 15 to 30 seconds or until it becomes cold or reaches a steady temperature before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods and steps you can take to minimize exposure is available at www.epa.gov/safewater/lead or by calling the Safe Drinking Water Hotline at 1-800-426-4791, TTY 711.

TURBIDITY IN DRINKING WATER

Turbidity has no health effects; however, turbidity can interfere with disinfection and provide a medium for microbial growth. Turbidity may indicate the presence of disease-causing organisms. These organisms include bacteria, viruses and parasites that can cause symptoms such as nausea, cramps, diarrhea and associated headaches.

2011 SOURCE WATER CRYPTOSPORIDIUM INFORMATION

The Town's water supplier has been monitoring the source waters for compliance with the EPA's Long Term 2 Enhanced Surface Water Treatment Rule (LT2ESWTR). The EPA created this rule to provide for increased protection against microbial pathogens, such as *Cryptosporidium*, in public water systems that use surface water sources. *Cryptosporidium* was monitored in the source water monthly in 2011 but was not detected in any sample. The only detection of *Cryptosporidium* that has occurred since the initiation of source water monitoring was in October 2005.

WATER QUALITY RESULTS

I. Microbiological Contaminants – Were there any detections of Fecal coliforms? (X) No.

Were there any detections of Total coliforms? (X) Yes, as described below.

Laboratory results indicated that coliform bacteria were present in three tests out of 360 samples.

II. Lead and Copper Contaminants – Were there any detections? (X) Yes, as described below. () No.

Contaminant	Units of Measurement	Action Level	MCLG	Results of Samples for the 90 th Percentile Value	Action Level Exceedance?	Sampling Year	# of Sampling Sites Exceeding Action Level	Typical Source of Contamination
Lead	ppm	0.015	0	0.001	NO	2009	0	Corrosion of household plumbing systems.
Copper	ppm	1.3	1.3	0.10	NO	2009	0	Corrosion of household plumbing systems.

III. Turbidity – Were there any detections? (X) Yes, as described below. () No.

Contaminant	Treatment Technique Limits	Level Detected	Violation?	Sampling Year	Typical Source of Contamination
Turbidity***	1.1 NTU maximum 2. 0.3 – 95% of the time	0.09 = highest single hourly measurement. Lowest monthly percentage of samples meeting turbidity requirements = 100 %	NO	2011	Soil runoff.

Notes:*** The turbidity level of filtered water shall be less than or equal to 0.3 NTU in at least 95% of the measurements taken each month and shall at no time exceed 1 NTU.

IV. 2011 Finished Water Characteristics, Source Monitoring for Regulated Parameters – Were there any detections? (X) Yes, as described below. () No.

Inorganic/Synthetic/ and Metals	Units of Measurement	MCLG	MCL	Level Detected	Violation?	Range of Detection at Sampling Points	Sampling Year	Typical Source of Contamination
Arsenic	ppb	0	10	0.9	NO	ND - 0.9	2011	Erosion of natural deposits; runoff from orchards/manufacturing of glass and electrical products.
Atrazine	ppb	3	3	0.6	NO	ND - 0.6	2011	Runoff from herbicide used on row crops.
Barium	ppm	2	2	0.05	NO	0.03 - 0.05	2011	Discharge of drilling wastes; discharge from metal refineries; erosion of natural deposits.
Chromium	ppb	100	100	3.5	NO	ND - 3.5	2011	Erosion of natural deposits; discharge from steel and pulp mills.
Combined radium 226/228	pCi/L	0	5	1.2	NO	ND-1.2	2011	Erosion of natural deposits.

Fluoride	ppm	4	4	1.1	NO	0.5 - 1.1	2011	Water additive which promotes strong teeth; erosion of natural deposits; discharge from fertilizer and aluminum factories.
Nitrate (Nitrogen)	ppm	10	10	2.6	NO	0.3 - 2.6	2011	Runoff from fertilizer use; leaching from septic tanks, sewage; erosion of natural deposits.
Nitrite (Nitrogen)	ppm	1	1	0.03	NO	ND-0.03	2011	Runoff from fertilizer use; leaching from septic tanks, sewage; erosion of natural deposits.
Selenium	ppb	50	50	1.3	NO	ND - 1.3	2011	Erosion of natural deposits; discharge from petroleum refineries; discharge from mines.
Simazine	ppb	4	4	0.2	NO	ND - 0.2	2011	Herbicide runoff.
Total Organic Carbon	% ppm removal	N/A	TT (25% - 35% required)	40%	NO	25% - 62%	2011	Naturally present in environment.

Contaminant/DBPs /Disinfection Byproducts	Running Annual MCLG (ppb)	Average MCL (ppb)	System Running Annual Average (ppb)	System Range (ppb)	Violation?	Sampling Year	Typical Source of Contamination
TTHMs [Total Trihalomethanes]	N/A	80	36	16-64	NO	2011	Byproduct of chlorination.
Haloacetic Acids(5)	N/A	60	24	10-38	NO	2011	Byproduct of chlorination.
Total Chlorine	4 ppm	4 ppm	2.43 ppm	2.0 - 3.0	NO	2011	Disinfection additive.

SUMMER ON THE GREEN

All concerts are held at 6:30 pm on the Town Green, 144 Maple Ave E. For weather information, call (703) 255-7842.

- June 27:** Louis the Magician
- June 29:** Cletus and Lori - Folk
- June 30:** Open Mic Night
- July 6:** FLYNN - Celtic
- July 8:** Chris Polk Band - Blues/Classic Rock
- July 11:** Emy Tseng - Brazilian Jazz, Sponsored by Pear Tree Cottage
- July 13:** Black Sombrero Brass - Herb Albert Tijuana Brass Tribute Band
- July 15:** Richard Walton Group - Jazz
- July 18:** Oh Susanna - Children's entertainment, Sponsored by Power Home Remodeling
- July 20:** Sarah Bennett Swanner - Soulful Blues, Sponsored by Dr. Garai
- July 21:** Open Mic Night Sponsored by Dr. Garai
- July 22:** Vienna Community Band
- July 25:** Ed McDade - Interactive Song and Story The Rhythm and Rhyme of American Folk Music
- July 27:** Kitty and The Fat Cats - Rockabilly, Blues and Jazz Band, Sponsored by Northwest Federal Credit Union
- July 29:** NOVA Brass Ensemble - 5:30 p.m. Village Jazz Band - 6:30 p.m. Sponsored by Dr. Garai
- August 3:** Kingsley Winter Band - Rock
- August 5:** Wayne Tympanik - Jazz/Dixieland

- August 17:** Clarence Buffalo - Soulful Rock
- August 18:** Open Mic Night
- August 19:** Blaskapelle "Alte Kameraden" - Bavarian Band

NEWS FROM VIENNA PARKS & RECREATION

All classes are held at the Vienna Community Center, 120 Cherry Street SE, unless otherwise specified.

Register for Parks & Recreation classes online at: www.viennava.gov/index.aspx?NID=545.

JUST FOR TEENS

Ice cream Social at Club Phoenix, Fri., July 6, 4:30 pm. All the flavors and toppings will be at your disposal to create your ice cream masterpiece!

Kinect Sports Challenge at Club Phoenix, Fri., July 27, 4:30 pm. Winners crowned in each round.

Teen Center summer hours of operation now through August 17 are:

- **6th Grade** - Monday through Friday, 4 to 7 pm
- **7th and 8th Grade** - Monday through Thursday, 4 to 7 pm; Fridays, 4 to 10 pm

POTPOURRI

The Vienna Scavenger Hunt runs May 21 through August 17. Participate in a six category photo scavenger hunt around Vienna! Submit a photo CD and entry form by August 17, to have a chance at being Vienna's #1 Recreating Family! The winning family will have their photo taken and put in next season's activity brochure. For more information, contact Enrique Guzman at (703) 255-6352 or eguzman@viennava.gov.

Vienna Youth Players Present: FOOTLOOSE on August 2, 4, 10 and 11 at 7:30 pm and on August 12 at 1 pm. Tickets go on sale July 9 at the Vienna Community Center. Tickets are \$14 for adults and \$12 for students and senior citizens 65 years and older.

JUST FOR YOUTH

Summer Stories and Sprinklers will be held on the Town Green on Wednesdays from June 27 through August 15 at 1 pm. Kids of all ages and their parents will enjoy a story at 1 pm and families are invited to run through the sprinklers at 1:30 pm. Free.

Tots and Teens on the Green will be held on Wednesdays on the Town Green from July 11 through August 8, from 2 to 3 pm. This event is free and open to children of all ages.

- July 11: Dinosaur Day
- July 18: Sports Day
- July 25: Princesses and Superheroes Day
- August 1: Nature Day
- August 15: A Rockin' Obstacle Course Party

For additional information, please visit www.viennava.gov.

MOVIES IN THE PARK

July- August

Glyndon Park

300 Glyndon Street NE

Enjoy your favorite family movies under the stars at Glyndon Park! All movies will be rated G. Bring your lawn chairs or blankets, or just sit in the grass and enjoy your favorite movie with your family.

Show dates and times:

- July 20: "The Lion King"
- August 24: "Kung Fu Panda 2"

Movies will begin at 8:45 pm or at dusk, whichever comes first.

No rain dates. Parents and family members are required to stay with their children. Call (703) 255-7842 for weather information on the day of the show.

Special women's health-focused cooking classes will be offered by Inova and the Buy Fresh Buy Local Program this summer. Each class will feature an Inova physician joined by a local chef. Together they'll provide a cooking demonstration, share important health information and recipes and answer questions. For more information, visit www.inova.org/summer-cooking.

YOUR REFUSE COLLECTION DAY MAY CHANGE EFFECTIVE JULY 2

The Town of Vienna will implement a new refuse collection program beginning July 2, which may impact your collection day. The new program will streamline refuse collection services by collecting everything-household trash, recycling, bulk items, yard waste and brush- on the same day each week in five newly created collection districts.

Your June Town Newsletter contained a map outlining the new districts along with a recycling decal to place on your permanent recycling container. Maps are available for pickup in the lobby of Town Hall or can be viewed online at www.viennava.gov. Additional recycling decals are available in the Public Works Department in Town Hall.

HOLIDAY COLLECTION

Town crews will collect refuse on all holidays except for Thanksgiving Day, Christmas Day and New Year's Day. Refuse **WILL BE COLLECTED** on July 4 in accordance with the new program. On the three holidays listed above, crews will "double up" on the day following the holiday and collect both the regular day's collection **AND** the missed holiday collection.

Please mark your calendars now with your new collection day so you'll be ready to go on July 2!

Public Works: call (703) 255-6380 or visit www.viennava.gov.

HAPPENINGS AROUND OUR TOWN

Your old magazines and paperback books are welcomed by detainees at the Fairfax County Adult Detention Center through the Literacy Project, sponsored by the Daughters of the American Revolution, Fairfax County Chapter. Regular donors may leave publications in sturdy plastic bags at the usual location on the last Tuesday of each month from 9 am to 7 pm. (Be sure to remove mailing labels from magazines.) First-time donors may call Florence Roseborough at (703) 281-2498 for information.

Western Fairfax PFLAG, a support group for Parents, Families and Friends of Lesbians and Gays, and **FLY**, a support and social group for youth ages 12 (with parental permission) to 19, will meet concurrently on Tues., July 3, 7:30 to 9 pm at the Unitarian Universalist Congregation of Fairfax, 2709 Hunter Mill Rd. In addition, **FLY** will meet on Sun., July 15, from 3 to 4:30 pm at the City of Fairfax Regional Library, 10360 North St., Fairfax in Room 103. Email: wf.pflag@gmail.com. Facebook: [Facebook.com/groups/fly.pflag](https://www.facebook.com/groups/fly.pflag).

Food Addicts in Recovery Anonymous (FA) meets Wednesdays at 7 pm at Wesley United Methodist Church and on Saturdays at 8:45 am at the Unity Club of Falls Church. Join us today for help, inspiration and a long-term solution. No dues, fees or weigh-ins. For more information, call Moira at (703) 684-3238 or visit www.foodaddicts.org.

Vienna Assembly of God offers a series of half day camps in July. "The Earth is the Lord's." Sign up your kids (rising Kindergarten through 6th grade) for a series of half-day camps focusing on the wonders of God's amazing creation. Games and hands on activities in a Christian context will be experienced.

- July 10: Science; July 17: Water; July 24: Nature; July 31: God's Treasures

Register at www.viennaag.com.

Exhibits at the Freeman Store include "Vienna Awakens To War: 1861 - 1865" in the Exhibit Room on the 2nd Floor and a *mini-exhibit on the War of 1812* located in the first floor hallway. The items included in these exhibits are on loan to Historic Vienna, Inc. by members of the Greater Vienna Community and the exhibits are designed and mounted by HVI volunteers. Both exhibits are open during Freeman Store hours, Wednesday through Sunday from 12 pm to 4 pm. For information, visit www.historicviennainc.org or call (703) 938-5187.

The Vienna Farmers Market, located in the caboose parking lot on Church Street NE, is open Saturdays from 8 am to 12 pm. The first ever Market Treasure Hunt for children ages 5 to 12 will be on July 21, from 9 to 11 am. Extra parking is available at the Vienna Assembly of God located at 100 Ayr Hill Ave NE, just a short walk down the W&OD Trail. For more information, contact us at manager@viennafarmersmarket.com or like us on Facebook\Vienna Farmers Market. The market is proudly operated by the Optimist Club of Greater Vienna.

Spaghetti Dinner, Fri., July 13, 5:30 to 8 pm, at the Vienna American Legion, 330 Center Street N, with salad, bread and dessert - \$8. Open to the public. For more information, call (703) 938-9535.

The Oakton Church of the Brethren Community Concert Series welcomes violinist Dr. Rami Kanaan and pianist Bettye Cooley on Sat., July 14 at 7 pm, 10025 Courthouse Road. Through a lecture-recital format, the audience will learn about Handel's life and characteristics of the Baroque musical style, with short excerpts of the music to demonstrate different points, before the two musicians perform each piece in their entirety. Free admission, with donations accepted. For more information, visit www.oaktonbrethren.org or call (703) 281-4411.

The McLean Branch of the American Association of University Women will collect used books, CDs, DVDs and software at the Sun Trust Bank, 515 Maple Ave E, on Sat., June 2 and 23, July 14 and Aug. 4, from 10 am to 4 pm. No records, tapes, textbooks, encyclopedias, (except Encyclopedia Britannica) magazines or books in poor condition will be accepted. These collections are in preparation for the McLean AAUW 43rd Annual Used Book Sale at the McLean Community Center on Sept. 14, 15 and 16. Sale proceeds provide scholarships for women. For more information, contact (703) 527-4206 or visit www.mcleanaauw.org.

Breakfast Buffet, Sun., July 15, from 8 am to 12 pm at the Vienna American Legion, 330 Center Street N. Adults \$8, children \$3: omelets, scrambled eggs, blueberry pancakes, bacon, etc. Open to the public. For more information call (703) 938-1379.

Free Blood Pressure Checks, provided by the Vienna Volunteer Fire Department, in the lobby of Navy Federal Credit Union, 820 Follin Lane on Sat., July 14, 10 am to 12 pm. This is a service that the VVFD does once a month on the second Saturday; locations will be announced each month. Any questions, contact Joanie@vvfd.org.

Epiphany Preschool, an outreach of Epiphany United Methodist Church, is now registering new students for the 2012/2013 school year. To schedule a tour or for more information, please contact us at (703) 938-2391 or at www.epiphanypreschool@vacoxmail.com.

Vienna Choral Society will offer a one day, vocal retreat with creative director Jennifer Rodgers Beach on Sat., Aug. 25, from 10 am to 4 pm at Unity of Fairfax, 2854 Hunter Mill Road. Appropriate for all skill levels and limited master classes spots available. Basic (bring your lunch) \$80, Basic (we buy your lunch) \$95, Master Class (lunch included) \$100. More details and tickets at www.viennachoralsociety.org.

THIS MONTH IN HISTORY

From the Vienna Newsletter Archives

July 2002: The results of the Transportation Safety Commission's (TSC) survey on speed humps indicates that the consensus is that speed humps are effective in controlling speed. The TSC is studying many different ways to calm the traffic in and through Vienna. The Virginia Department of Transportation has developed criteria for the use of speed humps and other calming devices. The TSC uses these criteria to determine if a device is appropriate for a specific street.

July 1992: The Vienna Police Department has initiated a voluntary "Emergency Notification List" service for town residents. The list will facilitate notification of participants' next-of-kin or other party in case of an emergency situation and should be especially helpful to those living alone.

July 1982: The Vienna (Host) Lions Club is celebrating its 40th anniversary this year. The club was chartered in 1942, and three of its original 18 members are still active in Lionism: Rev. Horace Lukens and Howard Rickert with the host club, and Norman Cobb with Vienna's Ayrhill Lions Club.

July 1972: Vienna has a new tradition! Vienna's first big 4th of July celebration was such a success that Bicentennial Chairman Paul Lyons promised that it will continue, at least for the next three years.

TRAIN STATION OPEN HOUSE

The Northern Virginia Model Railroaders will host an open house in the train station on Sat., July 14, from 1 to 5 pm. Admission is free; donations accepted. The station features a fully operational model railroad.

The W&OD Caboose, operated by the Optimist Club of Greater Vienna, will not be open during the month of July.

LANDLORD APPROVAL REQUIRED FOR NEW WATER/ SEWER SERVICE

Effective July 1, 2012, a State law change goes into effect that requires landlord approval in advance for a tenant to receive water and sewer service. The law change also requires tenants to pay a larger deposit to protect landlords.

At press time of this newsletter, we are still finalizing these changes. We expect the new forms and requirements to be available on the Town's website at www.viennava.gov by July 1.

REAL ESTATE TAX DUE

The first installment on 2012 Town of Vienna real estate taxes is due on Monday, July 30, 2012. If you have not received your bill by July 15, please call the Town's real estate office at (703) 255-6325.
