MOUTH AND THROAT TONING FOR BETTER SLEEP

Toning the mouth and throat muscles can dial down the volume of your snoring, thereby improving the quality of your sleep. Recent research indicates that exercising these muscles can even reduce the severity of obstructive sleep apnea. These exercises can be helpful when used alone or in conjunction with CPAP or other interventions. Even if you do not have apnea and are not snoring, these exercises may improve your sleep quality and help subtly sculpt your chin and cheek areas for a better appearance. Presented by Charles Masarsky, D.C. Vienna Chiropractic Associates.

STAYING ACTIVE & HEALTHY WITH FOOT & ANKLE PROBLEMS

One of the most important factors for a long and healthy lifestyle is finding ways to stay active and maintain a regular level of physical activity. Pain or dysfunction from foot and ankle problems, such as arthritis, Achilles tendinitis, bunions, and others, often dissuade people from participating in the activities they enjoy. Thankfully, recent advances in minimally invasive and patient-specific surgery have revolutionized the approach to these problems. Minimally invasive bunion correction and minimally invasive Achilles tendon surgery result in less swelling, a faster recovery, and a quicker, more reliable return to activity. Now, better than ever, we can fix these issues and help people return to function faster. Presented by Dr. Brian Gallagher.

DON'T SHRINK YOUR BRAIN, AVOID ALZHEIMER'S AND DEMENTIA

Memory is life's greatest gift. Memory provides us with cognitive function. It is memory and cognitive function that makes us who we are. Yet, we are led to believe that age causes our brain to shrink, robs us of memory, and may even impose some sort of dementia. That is a myth. Your brain shrinks; you lose memory and develop some form of dementia because your brain is not healthy. It can be prevented or corrected. Join this discussion with author and brain health coach, Norton S. Beckerman.

In this group, which has been meeting since 1988, we encourage each other to write about topics that are important to us in a friendly, supportive environment. There are no formal writing instructions or critiques, just sharing to jog our memories and stay connected to our pasts. Our topics are selected by group members, and our writing is shared privately within the group. Individual readings of essays of 600-1000 words are timed based on the number of participants in each meeting so that all members have an opportunity to share their writing. Join us for 90-minutes of fun, friendship, and the joy of sharing our life stories. The meetings are primarily in-person, but online participation is available.
